"The meetings in question, held at Augusta, brought together a group of students, of both sexes, from the four Maine

colleges to discuss vocational opportunities for young people in Maine, and Miss Kneubuhl, because of the fine standing the Federation has gained in the vocational field, was asked to suggest to the young women present vocational fields they might follow which might not only prove lucrative, but offer opportunity for self-development.

"Clarence C. Stetson, Chairman of the Maine Development Commission, who fostered the idea of the Economic Conference, presided, and Governor William Tudor Gardiner of Maine, in his opening address, gave two exceedingly practical suggestions. The first was that the young men of Maine might well find a field of usefulness in administrative work."

field of usefulness in administrative work in towns and cities, as city and town managers, or in county administration in applying business methods to government. The second was that with the awakening of public consciousness on matters of social welfare, young women graduates would find splendid opportunities in the welfare field.

"Miss Kneubuhl returned much impressed with the conference, with the feeling that many states might well follow the example of Maine, and hold similar vocational conferences in an attempt to infuse young college graduates of high calibre with an enthusiasm for remaining

Thoughts on the "Code" Bill

By R. L. Cummings of West Paris

I have been trying to get an understanding of the great change that is to be made in the government of our state by the "Code" bill as submitted by our legislature. It is a bill that is being referred to the people.

In the first section one, the governor, with the consent of the council, appoints four heads of departments, and each of them appoints about two thousand people that are under pay of the state.

In the second section two, the governor, with the consent of the council, can remove and appoint at their pleasure.

In the third section four, all bureau heads of departments have the same rank established by the governor and council.

For the past forty years the American people have seen the control over their government, county, state and national, pass from the hands of the people to the hands of commissions and every other description of department. They have made jobs for a boss that is a salary and they have a job for labor. All of these 2,000 people appointed by the governor or his subordinates cannot be reached by either the people or the legislature, even if the salaries are to be controlled by the people that appoints them. Surely it is a matter of course that they will not turn support those that have control over them and their jobs.

It is not a pretty rank sort of a government that would expect to exercise control than is given the Governor by this so-called "Code" bill.

As I see the matter, just a few more years in this direction and all the people of officials and their friends will have to do is to obey orders; pay the taxes and keep still.

Surely in nearly every community there will be smooth and perhaps what we commonly term educated people, that are or want to be, what we in lack of a better name, usually term "suckers" that will see in this bill a chance for a job; however those people are becoming better known to the public and it seems to me that if the people understand what this measure actually does, it will receive a very severe beating when it comes before the people for their approval or disapproval.

Every man and woman that believes in the fundamental principles of our democracy, who does not now fully understand what this bill does, should sign the petition for this referendum and then take a little time to ascertain what this bill does attempt to do.

We now hear a report that the highway appropriations must be cut down on account of the prospect that the referendum will fail to approve the five cent per gallon tax on gasoline.

Would it not have been well for those legislators to have thought of this matter when they defeated the measure before the committee to enact a State Income Tax?

Every year since the war, our Federal government has collected from the people of Maine an income tax ranging from \$1,628,737 to \$16,095,951. Some of the incomes from which this tax is derived exceeds \$1,000,000 annually. Many other states have such a tax and many more are laboring for one while the Federal government with every administration from Harding to Hoover have reduced the tax on these incomes.

Many states have income taxes, but from this great source of revenue our state receives not a penny.

I have been told that the history of the defeat of the income tax measure was in this manner: The Committee voted for the tax six to four, but before the report had been made to the house, Mrs. Carter, a Senator from Lewiston appeared and said that report must be changed and that C. H. Hildburn, a very prominent banker, said that it be done. This report also says that that report was changed to "ought not to pass" to 1. If this is true, it represents the facts I would be pleased to have Mrs. Carter state the facts. I understand that she signed the Grange before becoming a political office holder.

"Come on!"

SOME DAY, and soon, we Americans must snap out of it. The business depression started almost two years ago. A long time for gloom to cover America. Long, long, too long.

Why can't we get going again . . not sometime in the vague future . . but now? Let's change our mental outlook . . freshen our minds. Let's go somewhere—do something . . warm our weak backbones in the sun's valiant rays . . sweep and garnish the bleak chambers of our spirits with the cleansing breath of the wind.

Saturday is a holiday . . Memorial Day. Remember the courage of the men to whom it is dedicated and, in their sacred presence, be ashamed of our doubts and fears.

The Open Road invites us. The trees spread their branches in welcome; the eternal hills cry out to us, "Lift up your eyes." Bundle the children into the car. Pack up the lunch. Let's go.

P. S.—And, of course, Socony.

Saco Valley Larger Parish

Ministering to Lovell, Number Four, Fryburg, Harbor, and Fryburg, Saco Valley, Stow, Rev. Clifford V. Cross in Charge.

At the annual meeting of the Willing Workers' organization of North Fryburg, the following officers were elected: President—Mrs. Martha Smith; Vice President—Mrs. Anna Cochran; Secretary—Mrs. Esther Flint; Treasurer—Mrs. Gertrude Shaw. It was decided at this meeting to hold the usual lawn party, supper and summer sale. This year it will be held sometime during the week of July 19th, at the home of Harold Pitman. Further notices in regard to the event will appear in this column in the near future. The next meeting of the Willing Workers will be held Wednesday, June 3rd, at the home of Mrs. Lizzie Smith. The members will each take a box lunch as it will be an all day meeting. The ladies are planning on taking a comforter at that time.

The Fryburg Harbor Ladies' Aid met at the church and cleaned the vestry last week. A few of the members of the Lovell village Ladies' Aid met at the parsonage on Friday afternoon and completed taking a comforter.

On Friday evening a baked bean supper was held in the vestry of the Methodist church. At the close of the supper hour a very fine entertainment was enjoyed by a good sized audience. This entertainment consisted of musical numbers and readings by the school of Fryburg Harbor, Center Fryburg, West Fryburg and Tull Bridge. Besides the children, who participated, much of the evening's splendid program is due to the teachers of the above schools and to H. A. D. Hurd of Fryburg, who was master of ceremonies.

Sunday memorial services were observed at the Universalist chapel in North Fryburg, when the Frank Shaw Post of the American Legion, headed by Captain George C. Coe, were guests of honor. The choir of young men sang in the choir. Dana Farrington played the organ and Mrs. Nora Webb the organ. The Saco Valley Larger Parish male trio rendered two selections, "Where My Heart Is, There's My Home" and "There's a Stranger at the Door." James C. Kilgour, Jr. sang first tenor, Rev. Clifford Cross, second tenor and Frank Gray, bass.

Rev. Mr. Cross gave a very inspiring sermon in harmony with memorial observance, using for his theme, "Fundamentals of World Peace." The church was prettily decorated with potted plants and flags for the occasion. The seating capacity of the chapel was filled. The Methodist church of Fryburg Harbor united with the Universalist church for this service. It was enjoyed so much that some people expressed the desire to have union services often. It is a likely plan of the pastor to carry out such a program occasionally during the summer months, whereby the churches of the parish may unite and worship together for the Sunday with special music and special preaching.

Rev. Mr. Cross is coaching a drama, "The Village Lawyer", to be given for the benefit of the Cemetery Society of Fryburg Harbor.

The Epworth League of the Methodist church will hold a supper and entertainment on Friday evening, May 29th. The committee in charge is Dorothy McKee, Ruth Fairbanks and Aubrey Graves. George C. Coe will speak in the evening taking for his subject, "The Hoover Dam." Mr. Coe has spent a lot of time in gathering material for this subject and has given it a number of times the past winter. It's worthy of good support so it is hoped that as many as possible will attend this lecture.

A Memorial Sunday service was also held at the Lovell village Congregational church at 7:00 p. m. Rev. Mr. Cross delivered the sermon, Mrs. Mary Chandler played the piano and music by a quartet, Mrs. Nellie Eastman, Mrs. Mary Chandler, Rev. Mr. Cross and James C. Kilgour, Jr.

The services for next Sunday are as usual. Fryburg Harbor Sunday school, 10:00 a. m., public worship, 11:00 a. m.; North Fryburg Sunday school, 9:00 a. m., public worship, 10:00 a. m.; Lovell Sunday school, 10:00 a. m., public worship, 7:00 p. m.

SOUTH ALBANY

The hard rain, Saturday, washed the roads badly in many places. The grass is growing fast and fields and pastures are looking green and fresh. Many apple trees are beautiful, so thickly are they covered with the pink and white blossoms. Other trees and shrubs heavily clothed with the bright green foliage they are a pretty contrast to those in bloom. The many shades of green softly blended together make the hillsides as attractive as the more brilliant trees of autumn.

You'll call Pontiac the happy medium . . . quality you won't do without, at a cost you can easily pay*

It isn't difficult to learn what most people want in a motor car. We all want pretty much the same fine qualities—and we want them at a price which makes the purchase of the car a good investment.

You will find this combination in the Pontiac—that fine General Motors car. Thus, if it's a damp day when you first drive a Pontiac you will notice how snug and dry it is within the body. It's the same with heat, cold and traffic noise—because Pontiac's fine Fisher bodies are tightly insulated for your comfort and protection.

Appreciating the deep, form-fitting seats, you will note also the absence of road shocks and vibration. This is explained by four hydraulic shock absorbers and by rubber cushioning at 43 points in the chassis.

And when you first step inside the car you will be impressed by something out of the ordinary—genuine, long-wearing mohair or whipcord upholstery in the closed cars; fine leathers in open models.

Even though you feel that most cars have satisfactory motors, you will be surprised at the extra smoothness with which Pontiac's engine does its work. We have not forgotten that a car's first job is to get you somewhere, pleasantly. As you drive you will admire the quick pick-up and power of the big, easy-working motor. Immediately it will be clear to you why we are so proud of that engine.

Whatever you do—braking, clutching, swinging around corners—you will find you really enjoy driving this Pontiac.

Good looks? Modern smartness? We can leave the proof to remarks you will hear and the approving glances you will see as you drive about town or take friends to ride. (Bodies by Fisher.)

Possibly we are a little prejudiced—yet many Pontiac owners praise this car more than we would dare to. The values they have discovered will be clear to you once you have driven the Pontiac. Why not do that—soon! Any Oakland-Pontiac dealer will arrange a demonstration at your convenience.

ESCAPED PRISONER WOUNDED ACCIDENTALLY

Leo Loisel, fourteen, who escaped from the county jail, Friday afternoon, and was shot when John Flynn's automobile was accidentally discharged, is recovering at the Central Maine General Hospital.

Leo Loisel, in company with Arthur Ayotte, eighteen, scaled the fifteen foot fence surrounding the prisoners' yard and made a successful get away into the woods nearby.

Sheriff W. O. Frothingham at once had a posse on the trail of the fugitives. The boys were seen by the sheriff and deputy, Carl McPhee near Stonybrook lake that afternoon, but escaped in the thick bushes. A futile search was continued all night.

About 9 o'clock, Saturday forenoon the boys were seen back of the Smith home at Snow's Falls. Jailor John J. Flynn had them covered with his automatic and while putting the hands on one of the prisoners the other hit him arm and the revolver was accidentally discharged.

The boys were taken to South Paris and Ayotte was returned to his cell, but Loisel was rushed to the hospital in Lewiston, where his wound is reported not serious.

Young Loisel and Ayotte both of Rumford, were charged with the theft of an automobile. Loisel had been sentenced in the Superior Court at Rumford, to the State School for Boys, and was to be taken there Sunday. Ayotte was one of five prisoners who gained liberty in a fence jumping stunt last fall, but was serving time on a fresh charge against him.
